

ANNALS OF PURE AND APPLIED LOGIC
Volume 109, Numbers 1–2, 15 May 2001

SPECIAL ISSUE

Dedicated to Petr Vopěnka

Guest-editors

Bohuslav Balcar

Petr Simon

Contents

Petr Vopěnka (*16.5.1935)	1
List of publications of Petr Vopěnka	9
<i>K. Hrbacek</i> Realism, nonstandard set theory, and large cardinals	15
<i>S.R. Buss and P. Pudlák</i> On the computational content of intuitionistic propositional proofs	49
<i>P. Hajek and J. Shepherdson</i> A note on the notion of truth in fuzzy logic	65
<i>P. Komjáth</i> Three clouds may cover the plane	71
<i>A. Blass</i> Needed reals and recursion in generic reals	77
<i>J. Zapletal</i> Terminal notions in set theory	89
<i>M. Kojman and S. Shelah</i> Fallen cardinals	117
<i>B. Balcar and P. Simon</i> The name for Kojman–Shelah collapsing function	131
